

## The Rega P1

Ever proud of its reputation as a defender of high quality sounds at great prices, Rega is delighted to announce its new progeny, the **P1** turntable.

The first new addition to the Planar range of turntables for some time, we hope you'll agree it's worth the wait.

Featuring a completely new tonearm the **RB100**, this entry-level model comes ready-fitted with a cartridge, proving once more that you don't need loads of dosh to afford a cracking record player.

For over 30 years, Rega has been the first name on everyone's lips when it comes to turntables. With the new **P1**, Rega quality is now available at the lowest price ever.

The completely British-made **P1** features:

- brand new Rega RB100 tonearm;
- high quality main bearing, sub-platter assembly and stabilised MDF platter for excellent speed stability;
- 12v AC synchronous motor with belt drive;
- Ortofon OM5e moving magnet cartridge;
- Rega sound quality at an unrivalled price.
